Introduction

I would first like to thank you for investing into this course. The value that you will gain in these 11 lessons will be like nothing you have ever learned.

Each week will be a new lesson, and this manual is just an outline showing you what each lesson will entail, the lesson also corresponds with the week, so week one will be lesson one, week two will be lesson two and so on .

My goal is to make sure you learn, and practice these teachings, in fact, you will learn practical teachings that you can use in your everyday life to ensure that you create the life that you wish.

This course is designed to be an easy to understand course that gives you teachings that can be easily practiced. These teachings here are basically what you will be able to use to give you more happiness, and create a blissful life.

Now, just by purchasing this course you won't get help, but indeed you must practice this and put in the action. Although this course was designed to help you, there is no way that you will get any help if you don't actually put in the action that is needed to get the help.

It's like a man going to medical school to become a doctor, but without actually studying, and practicing medicine then he will never be the great doctor that he plans on being.

Your goal here should be one where you're aiming to become the great Metaphysician that you know you must become.

As you read the pages of this course, and practice the exercises given. You will see a major change will ensue in your life. You'll see how things will shift, and you might experience a series of events that lead to your desire.

Your manifestations will happen frequently, and they'll become stronger as you practice these exercises more vividly.

It's like everything else in life. When you go to the gym frequently what you're doing is building more muscle mass, and creating more strength.

Well, what you're doing by practicing these exercises is building your mental agility, and giving yourself the ability to practice a form or manifestation that only Kings, Queens and the world's elite knew about for centuries.

Once, again I thank you for investing in this course and investing in a better version of yourself. I look forward to playing a significant role in your development, and helping to guide you to a better world.

Lesson 1 What is Metaphysics?

The term Metaphysics is one that in order to truly understand the practice, you must know what it is. Now, I have seen many different variations and many meanings of what Metaphysics mean.

Meta comes from the Greek beyond and the other part is Physics. So, beyond Physics, I've also seen the definition of Metaphysics being a certain school of thought.

Which, if we were to talk about the many definitions, it is a school of thought. It is a certain philosophy and those who study it are trying to get more answers out of life.

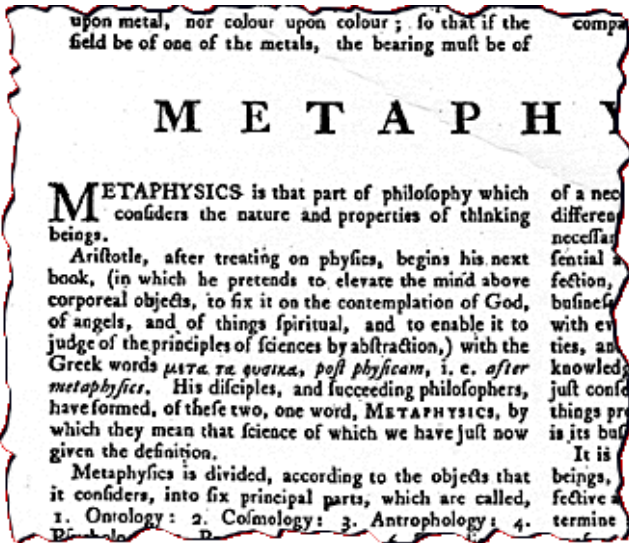

I would also add that Metaphysics to me is the science of the mind. I look at it as a system that shows, and utilizes the mind as the sole operant power in your life.

In fact, there is a great deal of truth behind this because your mind is your powerhouse.

Do yourself a favor, and when you go outside today just examine what you see. I bet you'll probably see homes, cars, paved roads, and street signs. You'll even notice an airplane is flying over your city.

You know where all that stuff came from?

All of what you're witnessing when you're outside are nothing more than creations from the thoughts of man, all of what you're seeing came out of the mind of man, and those were first done in a Metaphysical approach that then manifested by being created physically.

The whole vast world that we live in is nothing more than creations of the thoughts that some illumined individual brought to life. So to sum everything up, we are truly living in one large imagination.

One vast thought that great thinkers brought to life, and now we are in it. That is truly a beauty. I am always in love with the power of human thoughts and the power that they can bring to our world.

Out of all the great creations that roam this wonderful earth of ours, we have one thing that they don't have. We are the only species with this wonderful ability, and that is the ability to use our thoughts.

Yes a bird can fly, and do what we can't, but man figured out how to mimic the bird by creating aircraft.

Yes, a whale can survive in the sea, but man also figured how to mimic the whale by creating submarines.

We truly are a species like no other because we are the only species that can effectively utilize our thoughts. We can verbalize our commands, and our emotions and actions connect the dots and we bring everything together.

Now, I don't know about you, but this is pretty amazing. I want you to see how powerful, and effective the mind can be.

It is a tool that you can utilize throughout your life. So, if you had a problem that seemed quite large remember that reaching within, and pulling from your mind will always give the answers.

Metaphysics adds the bridge that creation and evolution seem to not bring together.

It seems that Metaphysics connects the dots, and pieces together the missing links. It is through Metaphysics where many answers are found.

Evolution will try to show how human beings evolved from a source, usually some other animal, but the problem with this theory is that there are always missing links in-between.

Creation will state how a God-like being created the heaven, and the earth, but just like Evolution there will be a missing link.

A theory that sounds good to many, but still filled with holes.

Now, let's take a look at Metaphysics, and how it is crammed in-between the two. It basically states that man was nothing, but a mere thought and as man evolved overtime, and developed his thought he kept on creating.

This theory holds up to be true because if we were to examine all of the creations that we have today from automobiles to aircraft we see that they all were formed from the mind of man.

We see that technology evolves over time as man evolves, and gets more aware.

As man goes on and develops in thought he evolves into a being who starts to understand the world around him.

He starts to study every form of creation, and the more he studies and learns, the more he becomes one with God.

Knowledge and wisdom is what separates humans from all the other creations on earth. It is Knowledge and wisdom that gives man his creative genius to build more on the earth.

Metaphysics is the bridge between Creation and Evolution.

It is the middle man to say the least, and once you understand that, although the philosophy might be different depending on who you ask.

The idea will always be there of Metaphysics being above, and beyond the normal way of dealing with the world around us.

Metaphysics is the basis, or foundation to every spiritual system on earth. They might use a different name for a deity, but in Metaphysics we know that to be a Law, or one of many Laws of the universe, and the Laws of Mind which are also tied to you and the universe.

Lesson 2 “ I AM” the concept of yourself.

In the Bible the first name of GOD is I AM. This comes from the book of Exodus when Moses was speaking with GOD.

Exodus 3:14 “ And GOD said unto Moses “I AM THAT I AM: and he said, Thus shalt thou say unto the children of Israel I AM hath sent me unto you.”

This is where the I AM concept of yourself comes from, and now when you look at it here is where I will break it down.

The Bible is a real living document that is an allegorical story that is filled with metaphors, and parables. Great Metaphysicians and Spiritual teachers have used the Bible for their spiritual systems.

Many folks have taken the Bible out of context, and have used it in a way that is basically the opposite of what the Hebrew, Greek, and Aramaic authors originally intended.

All the Biblical characters are different states of consciousness personified as individuals, places or events.

So that brings us to the concept of “I AM.”

This shows us how we are everything that follows the “I AM.”

Exodus means a mass evacuation from one place or situation into a better one. Moses in Egyptian means son the one illumined to bring forth a great change.

GOD here is speaking to Moses as he is telling him to inform his people that "I AM" has sent me unto you.

Now, if you were raised in the Christian church you might think that Moses was a man who lived many centuries ago and took his people from Egypt to the promise land.

Well here is the Metaphysical approach to that. Moses is a state of consciousness the level of awareness that lets you recognize your "I AM."

When you start to realize that you are GOD, and your "I AM" means everything then you will understand the deeper meaning of this text.

The deeper meaning is that your "I AM" shapes every perspective of your life, and when you get it down pack, and all the details of your "I AM" then you'll give yourself room to really flourish.

As, you take this course in the upcoming weeks you'll get more detail on your "I AM" and all that you will gain will shape your ideals, and mold you.

You won't use words like "I AM unhappy, or I AM sick."

You will see how everything that you say makes a difference, and this difference will help shape you on the road to brilliance.

The illumined person is the one who is shining and are seeking their wisdom daily. They are utilizing every minute of their life as a way to get more wisdom as it says in the Bible "Seek knowledge and understanding because it's the principle thing."

The major focus that you should have is not using the nasty negative words that so many in society use that has corrupted their "I AM."

So how can one corrupt their "I AM?"

Well you corrupt your "I AM" by using words that will defeat you before you even attempt to win at the game of life.

Your "I AM" is a sacred part of you, and it is what will shape you, so as we go on you'll see how over the years you probably ruined your own advancement by speaking ill on your "I AM."

That is exactly what makes you, so remember the words told to Moses because you are Moses when you are starting to become a person who wants true freedom in life.

Metaphysics is a source of freedom because it transforms the mind, and once the mind is transformed then true freedom comes.

“And be not conformed to this world: but be ye transformed by the renewing of your mind”
Roman 12:2

Once you see that your mind is the ultimate power of your “I AM,” and you also see that it was your mind that held you back for so long, then you will understand that you are the operant power here.

You will see the ability that you possess, and in no way will you look outside of yourself to find anything else beyond what you have.

We will explore the power that you possess and how your power is undeniably unique because it can make you happy, or it can make you miserable.

This power will be the source of all things good for you, and it will help you in all that you are going towards.

When you seek a better outlook, then you will have a better life.

Your current situation, or the situation of someone whom you know is all a result of past thinking that brought this on to you, or on to them.

You are the operant power in your life, so this course will surely give you a deeper understanding of your “I AM,” and the greater concept of who you are.

Lesson 3 Thoughts Create reality

Your thoughts are probably the single most powerful thing that you have. In fact, there isn't a single creation on this earth that man made that wasn't first birthed within man's thoughts.

Your thoughts have a great power over you, it has a power that you probably wasn't aware of before.

A power that you didn't realize, but in this lesson you will learn how to control your thoughts. You will learn how all your thoughts shape, and mold you. How they construct every piece of your life.'

Your thoughts, and your imagination is what connects you to the divine. It is through a clever thought, or a brilliant thought that great innovations are formed. Your thoughts place you in a state of happiness, abundance, lack, or sadness.

You can wake up today with a great thought, and go do something as equally great, and create a great reality.

Or you can sit down, and complain about how life is treating you badly. You can literally sit around, and complain yourself to death, and play the victim role, which then will give you results of the victim.

You'll get the results of the person in the state of consciousness that you're in, and that is exactly the victim.

Remember no one has ever gained any good results in life by focusing on their lack.

The individuals who went on to do great things, and helped shape society in great ways were always the individuals who didn't look at themselves as victims, but looked at themselves as folks who will be triumphant.

They knew that they couldn't let their current situation dictate to them the course of their life, so they didn't accept their current situation. In fact, they chose to play the role of the victor, and remove any consciousness of a victim from them.

This lesson will give you the understanding that your thoughts are your gateway to GOD.

They are your gateway to an endless world of infinite creation because once you live in the thoughts that you form, then you will be forced to push them out, and expose your creations with the outside world.

Thomas Edison created all his inventions first in his mind, and then he knew that he had to release them. He knew that he had to give the outside world exactly what he created because if he didn't then he wouldn't have felt fulfilled.

You are the creator of your life, and of everything that you do.

Remember this, without the mind or thoughts of man, we wouldn't have nothing that we have now.

I AM thrilled to show you the more detailed info. This lesson will make you look at the outside world differently, and you will start to utilize conscious creation.

You will look at the vast world in a whole new view, and you will see that there is nothing that you can't first create in your mind that you won't be able to bring to life, once you're truly focused and dedicated to do so.

This lesson will challenge your mind, and make you see the world quite differently.

This lesson will certainly open your understanding of how your thoughts are what creates the world the you desire to be in..

Lesson 4 Laws of the Mind.

This lesson will be quite powerful because it will show you exactly how to utilize a power that every living human being has. This is a power that you can use to gift you a wonderful life.

The Laws of the mind are powerful Laws. They tie greatly in with the previous lesson of how thoughts create reality.

They are one in the same, but when you understand the value that the Laws of Mind, then you will see how you must understand all aspects of this Law.

You will see how they are a contributing part of who you are as a person, and they make you into the best that you become.

So, if you were to analyze an individual, or better yet just analyze yourself, and then use the conclusions that you find, you'll see the absolute power of the Mind.

You will see the absolute dominance that you have when you utilize all the Laws of your Mind.

When you put the Laws of Mind to work in your favor, then the outcome will be one that you desire.

Here is a great example of the Laws of Mind working on an individual's' behalf.

When a candidate is running for public office they have literally told themselves that this is their absolute truth. They have created no opposition in their mind, and have created the world they desire in their mind.

What they do now is work tirelessly on their goal, and work diligently to bring their goal of winning the public office that they're running for to life.

They create no doubt in their mind that it's possible, and they don't think about winning because all that they can see is their ideals being the dominant view.

All they can see is their ideals being what takes them to the office that they're seeking.

This my friends is them using the Laws of Mind effectively, and if you can see your ideals being the dominant factor in bringing you to your Primary objective, then you will see yourself gaining more in life than what you have ever thought you would be able to gain.

This lesson is one of my favorites to teach because it gives you so much understanding on how to better equip your mind, so that you are ready to deal with the outside world.

Lesson 5 Practical Solution.

In this lesson you will see the practical solutions to your problems. Everything isn't as hard as you may seem, or as hard as how you probably convinced your mind to believe.

People will literally tell themselves a lie, and by doing so the truth now looks like a lie, while a lie is easily accepted.

They'll take advice from every angle , or from everyone, and they won't realize that there are practical solutions to their problem.

Please remember the laws of the universe here "cause and effect," "positive, and negative," "balance and imbalance."

Nothing is too big to the point that you can't handle it, so never lie to yourself, and make yourself believe the lie that something is out of your reach.

You are the operant power, and you have more than what's needed to get things done in your life. You have all that you need to create the solution to your problems.

The hardcore truth is this right here. You probably were the cause of your problem somewhere down the line, so you should see that you're the only one that can solve the potential problem that you probably created, or allowed someone else to create in your life.

In this lesson, you'll learn some valuable tools of the trade. You'll learn exactly what you must do to solve the problems that life throws your way, or to solve the problems that you help bring on to yourself.

In this lesson, you will learn practical solutions to become the problem solver in your life, and in the life of others.

Lesson 6 Meditation and Affirmations

In this lesson you will see why meditation creates a calm in your life that you need in order to rejuvenate you, and reinvigorate you on your life journey.

You will also get to witness the power of affirmations, and how they play a great role in building your attitude, your life and everything else that helps to mold you as a person.

We will discuss meditation techniques, and why affirmations are great to have. You might not have realized it, but every negative thing that has ever happened to you in the past was because of negative self-talk that you had exposed yourself to.

In this lesson we will make great strides in installing into you the ability to meditate and speak nothing but positive affirmations for yourself, even if it seems like everything is going bad.

Certain words trigger a reaction, good or bad we will speak on it, but they trigger a reaction nonetheless.

This part of the course will be designed to create a certain atmosphere that brings nothing but the best feelings, and joy with you at all times.

You see, folks have used negative words, all their life. Words of doubt have created a horrible atmosphere for you, and it has probably taken your life on a crash course.

This part of the course will shape your whole vocabulary, and show you why there are certain words, and feelings you must stay away from if you don't want to deal with the negative results that in the past you were dealing with.

Lesson 7 Sexual Magic

Now, we couldn't have a Metaphysics course if we didn't have a topic about one thing that will always be a part of human life, and human living. To be honest, in order for humans to continue on as a species this one thing will be necessary.

That one thing is SEX, and the power it holds.

In this lesson we will discuss how sex is a powerful tool, and we will also discuss powerful techniques that you can utilize to make your sex life one where you are in infinite control.

This lesson will be powerful, eye-opening, and like none you have ever seen.

It will showcase how sex plays a major part in the awakening process. In fact, you will see yourself rising to the occasion and you might find your sex life becoming way more intense the more you practice Metaphysics.

The more you open your mind, and make yourself open to receive more knowledge, you'll find that sex will become a tool that is liberating.

Prepare to learn tricks that will make you a SEX GOD. Remember everything is in the mind, and if you can handle sex within your mind, then you will be able to master it in the outside world.

Lesson 8 Biblical states of consciousness.

In this lesson you will see that all the bible characters are just different states of consciousness. You will learn how they are buried within you, and see how sometimes you might call on a state that you don't want, or one that you do.

You'll learn that each state or level of awareness can be helpful, or it can be detrimental. In this lesson you will be able to gather your thoughts, and see how every character are different states of consciousness personified as a place, person or event.

We shall take you on a journey here, and you will be able to give your mind a great test.

One that you never were able to understand before, but now we will give you much understanding when it comes to this topic.

You will see that every character in the bible are different states of consciousness dealing with the mind of man.

Showcasing the ideals, and values that the mind of man holds.

This lesson will make you look at your bible differently, and as you read this, and listen to the "You are GOD" podcast you will develop a inner function that fulfills a certain hunger in you that always wanted to be fed.

Lesson 9 Feelings and Emotions

It is through our feelings and emotions how we express our ideal to our subconscious. Sometimes no matter how much a person is trying to hide their feelings or emotions they can't because it speaks volumes.

In this lesson you will learn everything pertaining to controlling your feelings and emotions.

You will gain a grip on them, and learn how to not let them gain a grip on you.

Sometimes folks will get so emotional that they let it get a hold of them, and in return their emotions become the dominant factor in their life and it winds-up dominating them.

We will take a step by step journey on how you can control your feelings and emotions, and make them your slave instead of your master.

Lesson 10 How to properly pray

Most people think just kneeling on their knees, and making prayer hands is the right way to pray.

Really they're missing a major part. The correct way to pray is to get in the feeling, fall deeply into it, and see to it that your wish is already alive.

Now, how do you get into that wish?

You have to train your mind to believe it is done, and all the problems of the world no longer exist.

Everything that you want is already yours, and make your subconscious mind believe this, once you thoroughly have made your subconscious mind believe this, then you have created a new way to relay your prayers to your mind, and create exactly the right feeling that will make you have the ideal life that you're going after.

In this lesson you will learn exactly how to properly pray, and exactly how to bring forth exactly what you want.

Lesson 11 Contacting your higher-self

In this lesson you will see the importance of contacting your higher-self. You will see how by doing so you're shaping a better you.

You will get familiar with the greater you, and you'll have a sense of awareness that no one will be able to take from you.

The results of contacting your higher-self is a greater sense of awareness, and a stronger focus.

It creates a focus like no other, and you will be able to see the warning signs, and help yourself in ways you never thought you were able to before.

Upon contacting your higher-self you will be able to truly give yourself a new understanding on life.

One that eliminates any negative tone, and any negative outlook that might ruin your subconscious mind.
